

Sportfishing the Chesapeake Bay

Captain Randy Dean 410-259-9496

Atlantic Marina on the Magothy

487 New York Ave. Pasadena, MD 21122

TRIP DETAILS

- **Safety**

SAFETY is just as important as having fun. Children must be supervised. If you plan to drink alcohol - please drink responsibly. The Captain has the right to return to the dock if he feels SAFETY is an issue and full payment for the trip will be collected.

- **Fishing Etiquette**

The First Mate works for tips based on 15% to 20% of the minimum trip fee or more, if the First Mate cleans the fish. The fish cleaner charges a fee per fish, depending on the size of the fish. The fish cleaners are paid separately when you return to the docks.

- **What to Wear**

Dress in layers for the season and the forecast. Think of the morning and evening temperatures which can be quite different from mid-day. Wear comfortable, non-slip shoes.

- **What to Bring**

Bring food and beverage for the trip. Bring a cooler, ice and gallon size ZipLock bags for your fish - but leave these in your vehicle until the trip is completed. Bring sunscreen, sunglasses and a good camera to catch all the action!

- **Breakfast/Lunch**

We are currently offering advance orders for breakfast and or lunch.

FISHING INFORMATION

Fishing Seasons

- **Last Week May to First Week June**
Start live-lining and Drum fishing
- **June to Early October**
Start bottom fishing for Spot, Flounder, Trout, Croakers, and Perch
- **August to Mid-September**
Have some fun with Spanish Mackerel fishing
- **September to December**
You'll catch Sea Trout, Bluefish, and Rockfish
- **November to December**
The BIG ROCKFISH come back to finish the season off with some BIG FUN

Fishing Methods

- **Trolling**
In this type of fishing, one or more lines are baited with lures or bait fish and drawn through the water. Methods: from behind a moving boat or by slowly winding the line in while fishing from a static position. Types of fish caught: Rockfish, Bluefish, and Spanish Mackerel
- **Bottom Fishing**
A weight is tied to the end of the line and a hook is positioned about an inch above the weight. You can also use the weight to cast or throw the line a set distance. Fish targeted: Groundfish such as Spot, White Perch, Croaker, and Rockfish
- **Chumming**
Ground-up fish (chum) are thrown into the water to lure a variety of fish by their sense of smell. Species lured by this type of fishing: Rockfish and Bluefish.
- **Live-Lining**
This is the most popular method of fishing during the Rockfish season. Live-lining is the process of using live-bait, such as spot, to target the Rockfish or other species of fish. We do this all on light-tackle meaning you get a good fight on the end of your line - no matter the size of fish.
